Dominican republic floods
Overview map:
Cibao Valley,
North West of Dominican republic

Global Identifier (GLIDE) number: FL-2003-0571-DOM
Source: CRED/OCHA

Satellite image key
- Flooded river
- Soil water saturation
- Mountains

Background image:
LANDSAT ETM+ acquired 20 December 2000
Resolution: 15m

Flooded areas:
RADARSAT composite image
Image 1 (archive) acquired 4 March 2001
Image 2 acquired 30 November 2003
Spatial resolution: 25 m

Processing:
SERTIT Change Detection chain
Datum: WGS84
Projection: NUTM 19

Map created 1 December 2003.

The International Charter on Space and Major Disasters aims at providing a unified system of space data acquisition and delivery to those affected by natural or man-made disasters through authorized users. Since 1 July 2003 the Charter is available to support the United Nations with satellite imagery. Contact the UN Office for Outer Space Affairs for further information (oosa@unvienna.org).

This map was produced by the UNOSAT project headed by UNITAR and executed by UNOPS. UNOSAT is a UN-Private consortium providing satellite imagery and related geographic information to UN humanitarian and development agencies and their implementing partners. See www.unosat.org for further information.
