Dominican republic floods
Overview map:
Cibao Valley,
North West of Dominican republic

Global Identifier (GLIDE) number: FL-2003_0571_DOM
Source: CRED/OCHA

The International Charter on Space and Major Disasters aims at providing a unified system of space data acquisition and delivery to those affected by natural or man-made disasters through authorized users. Since 1 July 2003 the Charter is available to support the United Nations with satellite imagery. Contact the UN Office for Outer Space Affairs for further information (oosa@unvienna.org).

Background image:
LANDSAT ETM+ acquired 20 December 2000
Resolution: 15m

Flooded areas:
RADARSAT composite image
Image 1 (archive) acquired 4 March 2001
Image 2 acquired 30 November 2003
Spatial resolution: 25 m

Processing:
SERTIT Change Detection chain
Datum: WGS84
Projection: NUTM 19

Map created 1 December 2003.

The depiction and use of boundaries, geographic names and related data shown here are not warranted to be error free nor do they necessarily imply official endorsement or acceptance by the United Nations.

This map was produced by the UNOSAT project headed by UNITAR and executed by UNOPS. UNOSAT is a UN-Private consortium providing satellite imagery and related geographic information to UN humanitarian and development agencies and their implementing partners. See www.unosat.org for further information.
