This map illustrates satellite-detected damage and destruction in the city of Tikrit, Salah ad Din Governorate, Iraq. Using satellite imagery acquired 30 December 2014 and compared with imagery acquired 19 February 2014, UNITAR / UNOSAT identified a total of 274 affected structures within the area of this map. Approximately 86 of these were destroyed, 68 severely damaged, and 140 moderately damaged. The city-wide analysis of Tikrit revealed a total of 536 affected structures, of which 137 were destroyed, 241 severely damaged, and 158 moderately damaged. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.

LEGEND
