This map illustrates satellite-detected damage and destruction in the city of Zumar, Nineveh Governorate, Iraq. Using satellite imagery acquired 02 January 2015 and 08 January 2014, UNITAR / UNOSAT identified a total of 308 affected structures. Approximately 98 of these were destroyed, 134 severely damaged, and 76 moderately damaged. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.

The depiction and use of boundaries, geographic names and related data shown here are not warranted to be error-free nor do they imply official endorsement or acceptance by the United Nations. UNOSAT is a program of the United Nations Institute for Training and Research (UNITAR), providing satellite imagery and related geographic information, research and analysis to UN humanitarian and development agencies and their implementing partners.
