This atlas provides detailed crisis satellite imagery coverage over the locations of existing and planned Ebola Treatment Centers in the countries of Guinea, Liberia, Senegal, and Sierra Leone. Satellite imagery presented here is the best and latest imagery for each location and is provided under the International Charter for Complex Emergency and Major Disasters. This analysis was produced by UNITAR/UNOSAT in support of emergency humanitarian assistance activities, and has been designed for easy printing and readability A4 and A3 paper at 1:2,000 scale. This analysis has not yet been validated in the field. Please send ground feedback to UNITAR/UNOSAT at contact information below.
