

Internally Displaced Persons shelter trend in Dana Subdistrict, Harem District, Idlib Governorate, Syria

This map illustrates location and trends of satellite-detected shelters in the Dana Subdistrict, Harem District, Idlib Governorate, Syria. Using satellite imagery collected 21 May and 6 June 2019 UNOSAT identified a total of 43,814 shelters and 819 infrastructure and support buildings within the analysis extent. This is an increase of 8.4% compared with analysis from 5 February 2019, when a total of 40,417 shelters were visible in the same analysis extent. The increase is notable in both the consolidated and larger settlements as well as the scattered and smaller settlements. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR-UNOSAT.
